

Calling all primary schools!

Appetite for Action is a free sustainable food programme from Sky and Global Action Plan for all primary schools*.

Join the Action Club now and choose your challenge... *UK and Ireland

The GREENER GRUB challenge

Investigate where your school food comes from. Discover the benefits of local, seasonal and organic produce and increase the intake of these in your school meals.

The REDUCE RUBBISH challenge

Get busy sorting and assessing your school's rubbish. Work together and encourage the whole school to reduce, re-use and recycle in new and imaginative ways.

The GET GROWING challenge

Get your hands dirty as this challenge takes you on a food-growing journey; find new potential at your school as you discover new planting areas and food-growing possibilities.

Notice board

Post messages and chat with other schools about your challenge and progress. Search for schools in your area to share tips.

Dear Diary

Record your team's growing appetite for action using the Action Club Diary and share your profile page with parents and community members to show what you have been up to.

ACTION CLUB DIARY

August 20th, 2009

Heathly eating diary

We all kept fruit and vegetable check if we are getting our

Laugh out loud with Professor Planet

Our hilarious short films take you on an adventure with the enthusiastic scientist Professor Planet. Each short film comes complete with teacher notes and informative fact sheets.

FREE teaching resources

You will have access to useful learning resources covering a wide range of issues related to sustainable food. Students are encouraged to take action to help protect the environment.

Amazing prizes

Our competition prize includes winning a whopping **£3,000** for your school and the chance to be television stars on **Sky Real Lives**.

Your own Action Club

Your Action Club will lead your school through your chosen challenge. Create a team profile, invent a name and post pictures of each member or let them pick a fruit people character.

Easy step-by-step process

Our online process is easy. We will guide you through your chosen challenge, step by step. Measuring, action planning, taking action and celebrating your achievements.

CHALLENGE STEPS

1 STEP 1: FIRST MEASURE

A first survey of your school
Get a baseline of data
Find out what is going on in your school

> Carry out first measurement

2 STEP 2: ACTION PLAN

3 STEP 3: ACTION CLUB DIARY

4 STEP 4: MEASURE YOUR SUCCESS

Support National Curriculum delivery

Taking part in Appetite for Action challenges will support your delivery of the National Curriculum in an enjoyable, engaging way. On completing your challenge, your school will be awarded with the prestigious United Nations Environment Programme certificate.
